

OPPORTUNITY BUILDER WORKBOOK

An eight-week path from possibility to responsible action.

DOES THIS CREATE OPPORTUNITY?

Choose a path. Build useful proof. Take one responsible step.

Then, when possible, help open a door for someone else.

This workbook turns learning into opportunity.

Use these pages with the free Foundation Explorer workspace, an Academy pathway, a printed binder, or a trusted learning partner. The goal is not to finish everything at once. The goal is to make one useful decision, create one piece of proof, and take one responsible next step.

The Foundation promise

Does this create opportunity? Ask this before each major decision. Opportunity may mean clearer knowledge, safer choices, stronger preparation, useful proof, a supportive relationship, or a responsible next action.

Safe use

- Keep Social Security numbers, passwords, full account numbers, payment-card information, identity documents, complete credit reports, and medical records out of this workbook and any shared workspace.
- Use general descriptions instead of sensitive details.
- Ask a qualified professional when your question requires legal, tax, financial, medical, mental-health, caregiving, or other individualized advice.
- Remember that education, planning, and participation do not guarantee credit, career, business, funding, homeownership, tax, fraud-recovery, or other outcomes.

My eight-week commitment

I will protect my information, participate honestly, focus on a practical goal, and measure progress by the responsible work I complete.

Define what opportunity means for this journey.

A strong opportunity is understandable, responsible, useful, inclusive, and connected to action. Use the questions below before choosing a project or committing your time.

01 Who could benefit from this goal, including me?

02 What confusion, barrier, or unmet need does it address?

03 What useful knowledge, skill, document, relationship, or next step could it create?

04 What risks, costs, privacy concerns, or false promises must be avoided?

05 Can someone use the result in real life?

06 Could this work later help open a door for another person?

MY OPPORTUNITY STATEMENT

I want to build _____ so that
_____.

Eight academies. One connected network.

Choose one primary Academy for the pilot. You may use other Academies as supporting resources, but one clear starting point makes progress easier to see.

01 Credit Education Understand reports, disputes, fraud protection, and responsible readiness.	02 Tax Education Organize records and questions before working with a qualified professional.
03 Career Academy Build a clearer career direction, materials, and next-step plan.	04 Business Academy Turn an idea into an ethical, organized business foundation.
05 Project Management Define scope, milestones, responsibilities, risks, and delivery.	06 AI Academy Build digital confidence and use AI responsibly without exposing sensitive data.
07 Veterans Academy Prepare for transition, financial decisions, fraud protection, and homeownership.	08 Life Skills Academy Strengthen household systems, communication, safety, and life-transition planning.

My primary Academy

Why this path matters now

The practical result I want by Week 8

Move from possibility to responsible action.

The Foundation Pilot follows the five-stage Journey: Discover, Learn, Build, Connect, and Create Opportunity. The eight-week rhythm gives each stage enough space to become useful.

WEEK 01 Discover the goal Question: What future am I building? Useful proof: One clear goal statement	WEEK 02 Understand the starting point Question: What do I know, need, and need to verify? Useful proof: Starting-point inventory
WEEK 03 Learn from trusted sources Question: What knowledge changes the quality of my decision? Useful proof: Trusted-source notes	WEEK 04 Design the useful result Question: What will I build, organize, or prepare? Useful proof: Simple project plan
WEEK 05 Build the first version Question: What can I complete without waiting for perfection? Useful proof: Draft, checklist, portfolio, or readiness file	WEEK 06 Connect to support Question: Who or what can responsibly strengthen the next step? Useful proof: Support and resource map
WEEK 07 Test and improve Question: What is useful, confusing, missing, or risky? Useful proof: Feedback and revision notes	WEEK 08 Create opportunity Question: What responsible action will I take next? Useful proof: 90-day action and give-forward plan

Discover the goal

What future am I building?

THIS WEEK'S USEFUL PROOF

One clear goal statement

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- ☐ This step is understandable and useful.
- ☐ I identified important risks, limits, or privacy concerns.
- ☐ I know what I will do next.

Understand the starting point

What do I know, need, and need to verify?

THIS WEEK'S USEFUL PROOF

Starting-point inventory

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- This step is understandable and useful.
- I identified important risks, limits, or privacy concerns.
- I know what I will do next.

Learn from trusted sources

What knowledge changes the quality of my decision?

THIS WEEK'S USEFUL PROOF

Trusted-source notes

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- This step is understandable and useful.
- I identified important risks, limits, or privacy concerns.
- I know what I will do next.

Design the useful result

What will I build, organize, or prepare?

THIS WEEK'S USEFUL PROOF

Simple project plan

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- This step is understandable and useful.
- I identified important risks, limits, or privacy concerns.
- I know what I will do next.

Build the first version

What can I complete without waiting for perfection?

THIS WEEK'S USEFUL PROOF

Draft, checklist, portfolio, or readiness file

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- This step is understandable and useful.
- I identified important risks, limits, or privacy concerns.
- I know what I will do next.

Connect to support

Who or what can responsibly strengthen the next step?

THIS WEEK'S USEFUL PROOF

Support and resource map

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- ☐ This step is understandable and useful.
- ☐ I identified important risks, limits, or privacy concerns.
- ☐ I know what I will do next.

Test and improve

What is useful, confusing, missing, or risky?

THIS WEEK'S USEFUL PROOF

Feedback and revision notes

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- This step is understandable and useful.
- I identified important risks, limits, or privacy concerns.
- I know what I will do next.

Create opportunity

What responsible action will I take next?

THIS WEEK'S USEFUL PROOF

90-day action and give-forward plan

What I learned, verified, or decided

What I am building or organizing

My next responsible action

Opportunity check

- This step is understandable and useful.
- I identified important risks, limits, or privacy concerns.
- I know what I will do next.

Track completed work, not promises.

The Opportunity Score in the member Journey measures completion of five Foundation stages only. It is not a credit score, eligibility rating, risk score, financial rating, or guarantee. Use this page to record practical evidence of participation and growth.

Participation

How consistently did I complete the weekly work?

Knowledge

What can I now explain or evaluate more clearly?

Useful proof

What plan, portfolio, checklist, readiness file, or system did I create?

Responsible action

What real next step did I take?

Connection

What trusted resource, person, program, or community relationship did I identify?

Give-forward

How could this work responsibly help someone else?

Carry the pilot forward.

The pilot ends with a beginning: one responsible action for the next 30 days, one strengthening step for 60 days, and one opportunity-creating milestone for 90 days.

30 DAYS

The first action I will complete

60 DAYS

The skill, system, proof, or relationship I will strengthen

90 DAYS

The milestone that will show responsible forward movement

Opportunity grows when people help open doors.

You are not required to become an expert or promise results. A responsible give-forward action may be sharing an official resource, encouraging someone to protect their information, helping a person organize questions, recommending a learning path, or creating a respectful connection.

Someone or a community I hope this work can support

A safe and responsible way I can help

Boundaries I will respect

- ☐ I will not present education as individualized professional advice.
- ☐ I will not promise results, approvals, funding, employment, credit improvement, or recovery.
- ☐ I will protect privacy and use official or trusted resources.
- ☐ I will ask for help when a situation is outside my knowledge or role.

ONE MISSION

Let us work together to help over 1 million people, servicemembers, veterans, and military families build stronger futures.

What opportunity did this journey create?

Use this final reflection to name what changed, what you built, and what comes next. Progress may be knowledge, confidence, organization, proof, connection, or responsible action.

The most useful thing I learned

The strongest piece of proof I built

The responsible action I completed

The next opportunity I am ready to pursue

KEEP BUILDING
